To all the ISF Members

Paris, January 31st, 2018

Dear Members of the International School Sport Federation,

The ISF Youth Council, created in 2016, implements their first initiative in 2018. In line with the ISF Vision 2030, their project, «**Fun & Skills**» aims at promoting healthy lifestyle and sustainable sport through the creation of "Fun & Skills" zones on ISF events this year, levelling the general educational aspect of our sport competitions.

The project encompasses different phases. The first one is a **training of international volunteers**, where participants will discover the potential of sport in maintaining a healthy life-style, and the importance of raising awareness among athletes on anti-doping conducts, fair play, and sport values. Experts from different backgrounds will provide the participants (group of 15-20 people aged between 14 and 30) with new skills to organise side-activities that matches athletes' needs.

The second phase is composed of several implementations during **ISF events** (2018-2019). The group will be divided into different World School Championship to implement their "Fun & Skills" zones: pedagogical and creative spaces dedicated to athlete and participants of the events.

The ISF Youth Council oversees the selection process for the young volunteers, and the ISF office coordinates the project. Participation costs will entirely be covered for the participants.

This is a great opportunity for motivated students (current or former) to get involved in the world of school sport and become active leaders in the fields of sport and education, at the international level. The ISF Youth Council is extending the deadline to **February 9th**; we therefore call upon your support to select active young people to send their application forms (attached to this letter) and try to join the dynamic team of volunteers.

I strongly invite you to get into contact with the ISF staff for further information regarding the selection criteria (floriane.poncet@isfsports.org).

Yours sincerely,

Laurent Petrynka
ISF President
